## ALL-PURPOSE CLEANER

TECHNICAL DATA SHEET 181002SCANF

(supersedes 150629SCANF)

COMPLEMENTARY PRODUCTS

APPLICATIONS

ROOFS

### DESCRIPTION

**ALSAN ALL-PURPOSE CLEANER** is a water-based detergent designed to dissolve, remove grease and accumulations of dirt, oil and grease without the use of harsh solvents on surfaces to be recovered by **R NOVA PLUS**.

Moreover, **ALSAN ALL-PURPOSE CLEANER** is used to reactivate surfaces of the **R NOVA PLUS** membranes exposed for more than seven (7) days to environment elements and contaminants.

### APPLICATION

**ALSAN ALL-PURPOSE CLEANER** is applied using rolls, brushes, mop or low pressure sprayer.

When work is interrupted and the surface of the cured resin is exposed to environment elements, thoroughly clean the in-place and cured resin with **ALSAN ALL-PURPOSE CLEANER**. Apply and allow **ALSAN ALL-PURPOSE CLEANER** to remain 5 to 10 minutes. Do not allow the surface to dry. Rinse the surface thoroughly and entirely with clean water. Allow the surface to dry completely before covering the surface. **Make sure to do an adhesion test patch before the application of the first coat of R NOVA PLUS.**

Temperature application: 5 to 35 °C (41 to 95 °F).

FOR COMPLETE INFORMATION ON PRODUCT APPLICATION, PLEASE CONSULT YOUR SOPREMA REPRESENTATIVE.

### PACKAGING

Specifications	ALSAN ALL-PURPOSE CLEANER
Physical state	Liquid
Colour	Clear
Container	18.9 L (5.0 US Gal)
Coverage rate per container	139 m <sup>2</sup> (1500 ft <sup>2</sup> )

### CLEANING

Tools can be cleaned with soap and water.

### STORAGE AND HANDLING

Storage: Up to 24 months in original sealed container, protected from moisture. Store in a ventilated place, away from heat and direct sunlight.

For more information, refer to instructions on the container label and relevant safety data sheet (SDS).
