

ALSAN RS CLEANER

 TECHNICAL DATA SHEET
 150722SCAN1E
 (supersedes n/a)

DESCRIPTION

ALSAN RS CLEANER is a clear, blended solvent, used to clean and reactivate the transition area of in-place SOPREMA **ALSAN RS** rapid-curing.

ALSAN RS CLEANER is also used to clean and prepare plastic and metal surfaces prior to application of **ALSAN RS** membrane applications. **ALSAN RS CLEANER** may also be used as solvent for cleaning spills, tools and equipment.

APPLICATION

ALSAN RS CLEANER should be applied using clean rags or cloth. If work is interrupted and the surface of the cured resin is exposed to environment elements for more than twelve (12) hours or becomes dirty and contaminated, thoroughly clean the in-place and cured resin with **ALSAN RS CLEANER**. After the **ALSAN RS CLEANER** has been allow 15 minutes to evaporates, the surface may be coated as required.

FOR COMPLETE INFORMATION ON PRODUCT INSTALLATION, PLEASE CONSULT YOUR SOPREMA REPRESENTATIVE.

PACKAGING

Specifications	ALSAN RS CLEANER
Physical state	Liquid
Colour	Clear
Container	18.9 L (5.0 US Gallon)

(All values are nominal)

STORAGE & HANDLING

Always store closed containers in cool, ventilated and dry location away from any area where the fire hazard may be acute. Separate from incompatibles.

Do not smoke. Vapors may form explosive mixtures with air. Avoid skin and eye contact with material. Avoid breathing fumes. Do not eat, drink or smoke in the application area.

For more information, refer to instructions on the container label and relevant safety data sheet (SDS).
