Soprema USA
12251 Seaway Road
Gulfport (Mississippi) 39507
UNITED STATES
Tel.: 228 701-1900

In case of emergency:

SOPREMA (8:00am to 5:00pm): 1 800 567-1492

CANUTEC (Canada) (24h.): 613 996-6666

CHEMTREC (USA) (24h.): 1 800 424-9300

SECTION II: HAZARD(S) IDENTIFICATION

Not regulated under GHS.

Product made of polyethylene, paper, silicon and acrylic. No specific hazard if product is used in accordance with the technical datasheet. The film is likely to accumulate a high electrostatic charge. The discharge in the presence of combustible dust or solvents may cause an explosion.

SECTION III: COMPOSITION AND INFORMATION ON HAZARDOUS INGREDIENTS

NAME	CAS #	% WEIGHT	EXPOSURE LIMIT (ACGIH)	
			TLV-TWA	TLV-STEL
None				

SECTION IV: FIRST-AID MEASURES

SKIN CONTACT

Does not normally itch or irritate skin. Avoid prolonged contact. In case of contact, remove product immediately and wash with water and soap. (1)

EYE CONTACT

Contact may cause eye irritation. Avoid contact. In case of contact, rinse immediately with water. (1)

INHALATION

In case of fire, the released fumes will cause irritation. If exposed to the combustion fumes, get fresh air and medical attention. (1)

SWALLOWING

Not intended for ingestion. Avoid ingestion. Get medical attention in case of ingestion. (1)

SECTION V: FIRE-FIGHTING MEASURES

FLAMMABILITY: Not flammable
EXPLOSION DATA: Sensitivity to mechanical impact: No
Sensitivity to static charge: No
FLASH POINT: Not applicable
AUTO-IGNITION TEMPERATURE: Not available
FLAMMABILITY LIMITS IN AIR: Not applicable

COMBUSTION PRODUCTS

Low risk. The product may burn if exposed to a flame or at very high temperature. Products of combustion may include irritating fumes.

FIRE FIGHTING INSTRUCTIONS

Use standard procedures with full protective clothing and respiratory equipment (SCBA).

MEANS OF EXTINCTION

Water or any other agent rated for wood fire (Type A).

SECTION VI: ACCIDENTAL RELEASE MEASURES

RELEASE OR SPILL

Shovel and sweep up and place in suitable container for disposal. Follow the local regulation for solid waste management. Do not dispose in sewers or waterways.

SECTION VII: HANDLING AND STORAGE

HANDLING

Avoid contact with skin and eyes. Do not ingest. Handle and open package with care. When using do not eat, drink or smoke. Wash hands before eating, drinking and smoking.

STORAGE

Keep out of reach of children. In order to preserve the product, store at temperatures between 5°C (41°F) and 30°C (86°F) and a humidity between 35% and 65%. The storage at low temperatures (between -15°C (5°F) and 0°C (32°F)) results in a decrease of the adhesiveness, but the phenomenon is reversible without degradation of the product when the temperature rises back above 5°C (41°F). The storage at high temperature (40°C (104°F) and 55°C (131°F)) causes permanent degradation of the product and the performance is not guaranteed. Avoid direct exposure to temperatures above 50°C (122°F) and a humidity above 80%. The optimum conditions of application are from 5°C (41°F) to 30°C (86°F) and from 30% to 70% RH. Do not use with non-stick products. The application surface must be clean, dry and free from cleaning products.

SECTION VIII: EXPOSURE CONTROLS / PERSONAL PROTECTION

HANDS: Wear suitable gloves.

RESPIRATORY: Not applicable.

EYES: Safety glasses or goggles are recommended when using this product.

SKIN AND BODY PROTECTION: Not applicable.

OTHERS: Do not eat, smoke or drink where material is handled, processed or stored. Wash hands carefully before eating, drinking or smoking. Handle according to established industrial hygiene or safety practices.

SECTION IX: PHYSICAL AND CHEMICAL PROPERTIES

PHYSICAL STATE:	Solid
ODOUR AND APPEARANCE:	None
ODOUR THRESHOLD:	Not available
VAPOUR DENSITY (air = 1):	Not applicable
EVAPORATION RATE (Butyl acetate = 1):	Not applicable
BOILING POINT (760 mm Hg):	Not available
FREEZING POINT:	Not available
SPECIFIC GRAVITY (H₂O = 1):	Not available
SOLUBILITY IN WATER (20°C):	Insoluble
pH:	Not applicable
VOLATILE ORGANIC COMPOUND (V.O.C.):	Not available
VISCOSITY:	Not applicable

SECTION X: STABILITY AND REACTIVITY

STABILITY: Stable under normal storage conditions. The product will lose its properties if exposed to a source of heat or to temperatures under 0°C (32°F).

CONDITIONS OF REACTIVITY: No dangerous reaction known under conditions of normal use.

INCOMPATIBILITY: strong oxidizers and acids.

HAZARDOUS DECOMPOSITION PRODUCTS: May include but not limited to oxides of carbon.

CONDITIONS TO AVOID: see Section VII.

HAZARDOUS POLYMERISATION: None under normal use.

SECTION XI: TOXICOLOGICAL INFORMATION

According to the historical experience and the information available, the product has no adverse effect under normal conditions of handling and use.

SECTION XII: ECOLOGICAL INFORMATION

May cause long-term adverse effects on the aquatic environment. The product is not biodegradable. Do not dump into sewers or waterways.

SECTION XIII: DISPOSAL CONSIDERATIONS

WASTE DISPOSAL

This product is not considered as dangerous material. Consult local, state, provincial or territory authorities to know disposal methods.

SECTION XIV: TRANSPORT INFORMATION

Not regulated

SECTION XV: REGULATORY INFORMATION

DSL:	All constituents of this product are included on the Domestic Substances List (DSL – Canada).
TSCA:	All constituents of this product are included on the Toxic Substances Control Act Inventory (TSCA – United States).
Prop. 65:	This product does not contain chemicals known to the State of California to cause cancer or reproductive toxicity.

SECTION XVI: OTHER INFORMATION

GLOSSARY

ACGIH:	American Conference of Governmental Industrial Hygienists (United States)
CAS:	Chemical Abstract Services
GHS	Globally Harmonized System
TLV-TWA:	Threshold Limit Value – Time-Weighted Average
