SOPRATAPE C

TECHNICAL DATA SHEET
040309CAN1E
(supersedes --)

DESCRIPTION

SOPRATAPE C is a non-reinforced, two-face self-adhesive tape. It is composed of SBS-modified bitumen. A silicone-coated release film covers both self-adhesive faces. **SOPRATAPE C** is available in full width (36 in.) and cut rolls.

Minimum Application Temperature: 10°C.

PROPERTIES

Properties	Standards	SOPRATAPE C
Thickness	-	1.2 mm
Dimensions	-	20 x 0.91 m (36 in.)
Roll Weight	-	22 kg
Top Face	-	Opaque release film
Underface	-	Clear release film
Cold Temperature Flexibility	ASTM D1970	-30 °C

(All values are nominal)
