

DUOLAP

Tools and Equipment

TOOLS - MEMBRANE ROLLER

Pressure applied by the membrane roller optimizes adherence of self-adhesive membranes to the support.

| Code | Product | Size | Description |
|-------|--------------------------------|-------|--|
| 25073 | MEMBRANE ROLLER – METAL | 20 in | Metal roller that ensures maximum adherence of self-adhesive membranes |
| 25070 | MEMBRANE ROLLER – METAL | 5 in | Metal roller that ensures maximum adherence of self-adhesive membranes |
| 25075 | MEMBRANE ROLLER – POLYETHYLENE | 5 in | Plastic roller that ensures maximum adherence of self-adhesive membranes |

TOOLS - APPLICATORS AND TROWELS

Indispensable tools used to apply sealants, lift joints and perform finishing operations.

| Code | Product | Size | Description |
|-------|-----------------------|---------------|---|
| 25481 | APPLICATOR – ALUMINUM | 3 in x 11 in | Applicator used for the installation of DUOLAP system membranes on flashings and parapets |
| 26463 | NOTCHED TROWEL | 2 in x 4.5 in | Trowel with two serrated edges for the application of a sealant over granules at overlaps of granulated membranes; V shaped teeth of 3/16 in |
| 26460 | ROUND-NOSED TROWEL | 2 in x 6 in | All-purpose trowel used for lifting membranes when sealing transverse joints or for applying a sealant near openings and construction details |

EQUIPMENT - Flameless welding equipment for DUO SELVEDGE.

| Code | Product | Size | Description |
|-------|-------------------|-------|--|
| 21169 | DUOMATIC | | Cart equipped with a hot-air blower system for welding DUO SELVEDGE on membranes and panels of the DUOLAP system |
| 26486 | ELECTRIC HEAT GUN | | Hot-air electric gun for sealing overlaps when the DUOMATIC cannot be used |
| 20568 | SPARE NOZZLE | 40 mm | Spare nozzle for electric heat gun |

Benefit from a 25% discount on all DUOLAP tools and equipment, an offer exclusive to contractors during the training day.
