

Section 1. Identification	
<b>Product identifier</b>	URECO FL – PART 2 - HARDENER
<b>Other means of identification</b>	Hardener component of a cementitious polyurethane floor system
<b>Recommended use and restrictions on use</b>	Polyurethane hardener to be used with Ureco FL part 1, part 3 and part 4
<b>Initial supplier identifier</b>	PowerBlast Canada 3505 Le Corbusier Laval, Québec H7L 4Z4 Tel: (450) 625-9344 <a href="mailto:info@powerblastcanada.com">info@powerblastcanada.com</a>
<b>Canadian Distributor</b>	Soprema Inc. 1688 rue Jean-Berchmans-Michaud, Drummondville, QC, J2C 8E9 1-800-567-1492
<b>Emergency telephone number/restriction on use</b>	CANUTEC 24 hour number 613-996-6666
Section 2. Hazard identification	
<b>Classification of hazardous product (name of the category or subcategory of the hazard class)</b>	
Acute toxicity inhalation (Category 4) Skin irritation (Category 2) Eye irritation (Category 2A) Skin sensitization (Category 1) Respiratory sensitization (Category 1) Specific target organ toxicity – Single exposure (Category 3) Carcinogenicity (Category 2) Specific target organ toxicity – Repeated exposure (Category 2)	
<b>Information elements (symbols, signal words, hazard statements and precautionary statements of the category/subcategory)</b>	
 <p>DANGER</p> <p>H315 Causes skin irritation. H317 May cause an allergic skin reaction. H319 Causes serious eye irritation. H332 Harmful if inhaled. H334 May cause allergy or asthma symptoms or breathing difficulty if inhaled. H335 May cause respiratory irritation. H351 Suspected of causing cancer. H373 May cause damage to organs through prolonged or repeat exposure (inhalation).</p> <p>P201 Obtain special instructions before use. P202 Do not handle until all safety precautions have been read and understood. P260 Do not breathe dust/fume/gas/mist/vapours/spray. P264 Wash hands/nails/face thoroughly after handling. P271 Use outdoor or in well ventilated areas P272 Contaminated work clothing should not be allowed out of the workplace. P280 Wear protective gloves/protective clothing/eye protection/face protection. P284 In the case of inadequate ventilation wear respiratory protection. P304 + P340 IF INHALED: Remove person to fresh air and keep comfortable for breathing. P312 Call a doctor if you feel unwell. P342 + P311 If experiencing respiratory symptoms: Call a doctor. P302+P352 IF ON SKIN, Wash with plenty of water for several minutes. P333 + P313 IF SKIN irritation or rash occurs: Get medical attention. P362+P364 Take off contaminated clothing and wash it before reuse. P305 + P351 + P338 IF IN EYES, Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P337 + P313 If eye irritation persists: Get medical attention. P308+P313 IF exposed or concerned: Get medical attention. P314 Get medical attention if you feel unwell. P405 Store locked up. P501 Dispose of contents/container into safe container in accordance with local, regional or national regulations.</p>	
<b>Other hazards known</b>	Inhalation – when properly used vapour or mist will not occur. Avoid any action that will generate Mist or Vapours

Section 3. Composition/information on ingredients		
Chemical name (common name/synonyms)	CAS number or other	Concentration (%)*
Polymeric Diphenylmethanediisocyanate	9016-87-9	15-40
4,4 monomeric diphenylmethane	101-68-8	40-70
MDI isomer/oligomers	26447-40-5	7-13

\* Statement - This safety data sheet provides concentration range(s) instead of the actual concentration(s) considered trade secret(s).

Section 4. First-aid measures	
<b>Inhalation</b>	IF INHALED: Remove person to fresh air and keep comfortable for breathing. Immediately call a doctor.
<b>Ingestion</b>	IF SWALLOWED: Rinse mouth. Then drink plenty of water. Do NOT induce vomiting. NEVER give anything by mouth if victim is rapidly losing consciousness, or is unconscious or convulsing. Rinse mouth thoroughly with water. Have victim drink two glasses of water. If vomiting occurs naturally, have victim lean forward to reduce risk of aspiration. Call a doctor immediately.
<b>Skin contact</b>	IF ON SKIN: wash with plenty of water. (15-20 minutes) IF SKIN irritation or rash occurs: Get medical attention. Take off contaminated clothing and wash it before reuse.
<b>Eye contact</b>	IF IN EYES, Rinse cautiously with water for several minutes (15-20). Remove contact lenses, if present and easy to do. Continue rinsing. Immediate medical attention required.

<b>Most important symptoms and effects (acute or delayed)</b>	Causes skin irritation. Causes serious eye irritation.		
<b>Indication of immediate medical attention/special treatment</b>	In all cases, call a doctor. Do not forget this document.		
<b>Section 5. Fire-fighting measures</b>			
<b>Specific hazards of the hazardous product (hazardous combustion products)</b>			
Carbon oxides and other irritant/toxic gases and fumes.			
<b>Suitable and unsuitable extinguishing media</b>			
In case of fire: Use carbon dioxide, chemical powder agent and appropriate foam to extinguish surrounding products.			
<b>Special protective equipment and precautions for fire-fighters</b>			
During a fire, irritating/toxic smoke and fumes may be generated. Do not enter fire area without proper protection. Firefighters should wear proper protective equipment and self-contained breathing apparatus with full facepiece. Shield personnel to protect from venting, rupturing or bursting cans. Move containers from fire area if it can be done without risk. Water spray may be useful in cooling equipment and cans exposed to heat and flame.			
<b>Section 6. Accidental release measures</b>			
<b>Personal precautions, protective equipment and emergency procedures</b>			
Absorb spillage to prevent material-damage. Restrict access to area until completion of clean-up. Ensure clean-up is conducted by trained personnel only. All persons dealing with clean-up should wear the appropriate protective equipment (See Section 8).			
<b>Methods and materials for containment and cleaning up</b>			
Ventilate area of release. Stop the leak if it can be done safely. Contain and absorb any spilled liquid concentrate with inert absorbent material, then place material into a container for later disposal (see Section 13). Contaminated absorbent material may pose the same hazards as the spilled product. Notify the appropriate authorities as required.			
<b>Section 7. Handling and storage</b>			
<b>Precautions for safe handling</b>			
Wear protective gloves/ protective clothing/ eye protection/ face protection. Before handling, it is very important that engineering controls are operating, and that protective equipment requirements and personal hygiene measures are being followed. People working with this chemical should be properly trained regarding its hazards and its safe use. Inspect containers for leaks before handling. Label containers appropriately. Ensure proper ventilation. Avoid breathing dust/fume/gas/mist/vapours/spray. Avoid contact with eyes, skin and clothing. Keep away from heat, sparks and flame. Avoid generating high concentrations of dusts, vapours or mists. Keep away from incompatible materials (Section 10). Keep containers closed when not in use. Empty containers are always dangerous. Refer also to Section 8.			
<b>Conditions for safe storage, including any incompatibilities</b>			
Store in a well-ventilated place. Keep container tightly closed. Keep cool. Store locked up. Store away from incompatible materials (Section 10). Inspect all incoming containers to make sure they are properly labelled and not damaged. Storage area should be clearly identified, clear of obstruction and accessible only to trained personnel. Inspect periodically for damage or leaks.			
<b>Section 8. Exposure controls/Personal protection</b>			
<b>Control parameters (biological limit values or exposure limit values and source of those values)</b>			
Exposure limits: CAS 101-68-8 ACGIH TLV TWA 0.005 ppm;			
<b>Appropriate engineering controls</b> Provide local exhaust ventilation to maintain recommended PEL			
Use of adequate ventilation should be sufficient to control worker exposure to airborne contaminants. If used in the proper manner material fume/ mist and vapour and dust should not exceeded the safety limits			
<b>Individual protection measures/personal protective equipment</b>			
Respiratory protection is required if the concentrations are higher than the exposure limits. Use a NIOSH approved respirators equipped f the exposure limits are unknown. Chemically protective gloves (impervious), and other protective clothing to prevent prolonged or repeated skin contact, must be worn during all handling operations. Wear protective chemical splash goggles to prevent mists from entering the eyes. Wash hands/nails/face thoroughly after handling. Do not eat, drink or smoke when using this product. Practice good personal hygiene after using this material. Remove and wash contaminated work clothing before re-use.			
<b>Section 9. Physical and chemical properties</b>			
<b>Appearance, physical state/colour</b>	Dark brown to amber liquid	<b>Vapour pressure</b>	Not available
<b>Odour</b>	Slightly musty (aromatic)	<b>Vapour density</b>	Heavier than air
<b>Odour threshold</b>	Not available	<b>Relative density</b>	1.24 approx. at 25° C
<b>pH</b>	Not available	<b>Solubility</b>	Not available
<b>Melting/freezing point</b>	Not available	<b>Partition coefficient - n-octanol/water</b>	Not available
<b>Initial boiling point/range</b>	406 F (208° C)	<b>Auto-ignition temperature</b>	Not available
<b>Flash point</b>	390 F (199° C)	<b>Decomposition temperature</b>	Not available
<b>Evaporation rate</b>	Not available	<b>Viscosity</b>	Not available
<b>Flammability (solids and gases)</b>	Not available	<b>VOC</b>	Not available
<b>Upper and lower flammability/explosive limits</b>	Not available	<b>Other</b>	None known
<b>Section 10. Stability and reactivity</b>			
<b>Reactivity</b>			
Does not react under the recommended storage and handling conditions prescribed.			
<b>Chemical stability</b>			
Stable under the recommended storage and handling conditions prescribed.			
<b>Possibility of hazardous reactions</b>			
None known			
<b>Conditions to avoid (static discharge, shock or vibration)</b>			
None known			
<b>Incompatible materials</b>			
None known			
<b>Hazardous decomposition products</b>			
None known			

<b>Section 11. Toxicological information</b>	
<b>Information on the likely routes of exposure (inhalation, ingestion, skin and eye contact)</b>	
Causes skin irritation. May cause an allergic skin reaction. Causes serious eye irritation. Harmful if inhaled. May cause allergy or asthma systems or breathing difficulty if inhaled. May cause respiratory irritation. Suspected of causing cancer. May cause damage to organs through prolonged or repeat exposure (inhalation).	
<b>Symptoms related to the physical, chemical and toxicological characteristics</b>	
Skin irritation, redness, stinging, pain; Eye irritation, redness, tearing. Mouth, throat or respiratory tract irritation.	
<b>Delayed and immediate effects (chronic effects from short-term and long-term exposure)</b>	
Skin Sensitization – Possible; Respiratory Sensitization – Possible; Germ Cell Mutagenicity – No data available; Carcinogenicity – Ingredients listed by IARC, ACGIH, NTP or OSHA; Reproductive Toxicity – No data available; Specific Target Organ Toxicity — Single Exposure – Possible; Specific Target Organ Toxicity — Repeated Exposure – Possible; Aspiration Hazard – No data available; Health Hazards Not Otherwise Classified – No data available.	
<b>Numerical measures of toxicity (ATE; LD<sub>50</sub> &amp; LC<sub>50</sub>)</b>	
None; ATE not available in this document.	
<b>Section 12. Ecological information</b>	
<b>Ecotoxicity (aquatic and terrestrial information)</b>	No data available for this product
<b>Persistence and degradability</b>	No data available
<b>Bioaccumulative potential</b>	No data available
<b>Mobility in soil</b>	No data available
<b>Other adverse effects</b>	No data available
<b>Section 13. Disposal considerations</b>	
<b>Information on safe handling for disposal/methods of disposal/contaminated packaging</b>	
Dispose of contents/container into safe container in accordance with local, regional or national regulations.	
<b>Section 14. Transport information</b>	
<b>UN number; Proper shipping name; Class(es); Packing group (PG) of the TDG Regulations (ground)</b>	
Not regulated	
<b>UN number; Proper shipping name; Class(es); Packing group (PG) of the IMDG (maritime)</b>	
Not regulated	
<b>UN number; Proper shipping name; Class(es); Packing group (PG) of the IATA (air)</b>	
Not regulated	
<b>Special precautions (transport/conveyance)</b>	None
<b>Environmental hazards (IMDG or other)</b>	None
<b>Bulk transport (usually more than 450 L in capacity)</b>	Possible
<b>Section 15. Regulatory information</b>	
<b>Safety/health Canadian regulations specifics</b>	Refer to Section 2 for the appropriate classification. This product has been classified in accordance with the hazard criteria of the Hazardous Products Regulations (HPR).
<b>Environmental Canadian regulations specifics</b>	Refer to Section 3 for ingredient(s) of the DSL release restriction on quantity / not listed
<b>Safety/health/environmental outside regulations specifics</b>	
United States OSHA information: This product is regulated according to OSHA (29 CFR). United States EPA (Environmental Protection Agency) information: 40 CFR Refer to the ingredients listed in Section 3 & Sections 12; 13 & 14. United States TCSA information: Refer to the ingredients listed in Section 3. California Proposition 65: This product does not contain any ingredient that is known to the State of California to cause cancer or other reproductive harm.	
<b>Section 16. Other information</b>	
<b>Date of the latest revision of the safety data sheet</b>	October 30, 2018 version 2 (PowerBlast Canada Regulatory Affairs)
<b>Corrections</b>	Sections 1; 2; 3; 5; 6; 8; 9; 10; 11; 12; 14; 15; 16.
