FLAGON PVC CLEANER

TECHNICAL DATA SHEET

ANZ-TDS-81-FLAGON PVC CLEANER

DESCRIPTION

FLAGON PVC CLEANER is a ready-to-use solvent for reactivating the welding zone of the FLAGON PVC membrane.

FLAGON PVC CLEANER should be considered a weld activator and should not be used for washing surface of long-lasting PVC membranes on which a layer of dirt has been deposited, but rather it must be used after washing it with special neutral detergents to reactivate its weldability.

FLAGON PVC CLEANER is compatible with all FLAGON PVC membranes.

APPLICATION

- Apply FLAGON PVC CLEANER quickly with a rag without stopping, avoid excessive use to avoid damage to the membrane.
- Wait for complete evaporation before welding.
- FLAGON PVC CLEANER cannot be used in contact with polystyrene panels.
- Do not use FLAGON PVC CLEANER to wash the extended surface, but as an activator.

FOR COMPLETE INFORMATION ON PRODUCT INSTALLATION, PLEASE CONSULT YOUR SOPREMA REPRESENTATIVE.

PACKAGING

| SPECIFICATIONS | FLAGON PVC CLEANER |
|-----------------|--------------------|
| Physical aspect | liquid |
| Weight | 3 kg |

VISUAL

STORAGE AND HANDLING

Store in a dry and well-ventilated place.

Do not apply on wet waterproofing membrane.

STATEMENT OF RESPONSIBILITY

The technical information and application advice given in this publication is based on the present state of our best knowledge. As the information herein is of a general nature, no assumption can be made as to a product's suitability for a particular use or application and no warranty as to its accuracy, reliability or completeness either expressed or implied is given other than those required by Commonwealth or State Legislation. The owner, their representative and/or the contractor are responsible for checking the suitability of products for their intended use.
